MARCH 18, 2006 WORKSHOP

Probability and Statistics– Heather McCain

Probability and Statistics The Basics!

Join us for a fun look at probability and statistics. Yes, fun! Roll dice, flip coins, play card games, and be entertained by computer simulations all while learning about the basics of probability and statistics. Chocolate will also be involved!

This workshop will cover the following topics:

- Probability concepts
- Types of data and collection methods
- Descriptive statistics
- Graphical methods
- Common data distributions

Bring your laptop and we will even have some fun using Excel!

About this month's speaker:

Heather McCain is currently a Quality Consulting Engineer at Hallmark Cards, Inc. Her primary responsibility is to provide information and advice to operations on quality and process

improvement. Prior to joining Hallmark Cards, Heather was with AlliedSignal (now Honeywell) Aerospace and Automotive. Heather is a Senior member of American Society for Quality (ASQ). She is very active in the Quality Management Division of ASQ and is the current Chair-Elect. She is also active in her local ASQ section and is a past section chair. Heather has been involved with the both the Kansas Award for Excellence and the Missouri Quality Award. Heather is a Certified Quality Engineer, Certified Quality Manager, and Six Sigma Master Black Belt. She has a BS in Electrical Engineering from Kansas State University and a MS in Engineering Management from The University of Kansas.

Newsletter Editor, ASQ Section 1301

THE CUSTOMER-SUPPLIERS ARE COMING! (AGAIN)

A virtual interview with Dennis and Dick

Newsletter: I'm here with Dennis Arter and Dick Gould, course instructors for the ASQ Customer-Supplier Division. I understand you have plans to teach some seminars in the area?

Dennis: Yes, we plan to be here on Monday and Tuesday, April 3 and 4. We will be at the Doubletree Hotel, out in Overland Park.

Dick: Dennis will teach the one-day class on **Supplier Auditing** on Monday. I will follow with **Supplier Certification** on Tuesday. Both are basic classes and no experience is required (or expected).

Newsletter: Wow! With two high-powered guys like you, I'll bet these are expensive!

Dennis: Actually, no. We are charging \$400 per participant per class and offer several discounts for registering early, attending both seminars or sending multiple people from your firm.

Dick: That's right. We don't use fancy hotels or drive big cars. Plus, we feed you. Both breakfast and lunch are part of the package.

Newsletter: Is there more?

Dennis: Well, you get a copy of my book if you attend the audit class.

Dick: Or the supplier certification book if you attend my class. Plus, both seminars have course notes.

Newsletter: Is this part of the CSD Roadshow program?

Dennis: Yes. About five years ago, we really listened to the voice of the customer. Our CSD members, and others, were asking for short, focused, inexpensive learning events in their local community. Most folks can't afford the time and expense of traveling across country, staying in a fancy hotel, and missing a week of work.

Dick: So we decided to come to you! The last time we were here in Kansas City was November 2003. Trouble is, most of the Section didn't know we were here – until it was too late. We are trying to do a better job of getting the word out.

Newsletter: I want to attend! Where can I get more information and sign up?

Dennis: Check out our web site at <http://www.asq.org/cs/courses>. There, you will find the venues listed for the rest of the year. You can even download the pdf brochure to your hard drive.

Dick: I'm looking forward to meeting everyone in April.
